

PROBLEM SOLVER

PROBLEM:

Urinal drain lines often clog or run too slowly.

This Causes:

- Overflowing drain lines from uric salt buildup.
- Foul odors.
- Repeated instances of clogging.
- Expensive and time-consuming maintenance, like mechanical drain rodding and urinal removal.
- Trial and error of inefficient drain products.

DRUMMOND®
A LAWSON PRODUCTS BRAND

SOLUTION:

Drummond® Free-Flow Ultra-Strength Urinal Drain Control

- Breaks through uric salt, mineral deposits, and rust deposits in urinals to restore free-flowing drains.
- Attacks, breaks down, and flushes away the source of foul urinal odors.
- Clings to drain lines and leaves a non-stick, protective coating to prevent future buildup.
- Prevents expensive repairs.

APPLICATIONS:

- Recommended for urinals in high-traffic commercial or industrial areas.

INDUSTRIES:

- Education
- Government
- Hospitality
- Manufacturing
- Medical facilities

Attacks uric acid salt buildup, scale and odor
