

Mega-Tech Brushable Ceramic Kit

A brushable epoxy coating specially blended with abrasion resistant ceramic fillers to provide a durable barrier to protect surfaces subjected to wear and abrasion. Easy and apply by brush to most surfaces. It is waterproof and resistant to most chemicals and solvents. The formula is a thick and creamy epoxy coating that allows for vertical and overhead application.

- Ultra-pure silicon-based ceramic particles
- Improve abrasion resistance
- Smooth, high-gloss surface
- Reduces cavitation and material hang up and increases flow efficiency
- Creates greater strength
- Applies at 6–10 mils.
- Can be multi-coated up to any thickness
- Superior protection from rust or corrosion

Description	Size	Item No.	Pkg. Qty.
Base and Activator	2 Lbs.	1637120	1
