

SPECIALTY TERMINALS and CONNECTORS

Visa Crimp and Solder Seal™ Butt Connectors

These terminals provide the maximum reliability. These clear adhesive-lined butt connectors have a crimp window and thermal indicator to help prevent the creation of a cold solder joint. The specialty red dye completely disappears from the solder connector when the right amount of heat is applied for fully melted solder connection.

- The ultimate crimped, soldered and sealed electrical connectors – crimped for maximum reliability, soldered for strength and conductivity, and sealed for superior durability
- The crimp connector has a window for visual inspection of the soldered connection
- Easy installation with pre-measured solder removes the guesswork from the solder process
- Color-coded wire gauge imprint provides easy identification of the correct part for the job
- Special red thermal indicator to let you know when solder is complete

Wire Ga. (AWG)	Item No.	Pkg. Qty.
12-10	1637796	20
16-14	1637795	20
22-18	1637794	20

Visa Solder Seal™ Butt Connectors

These terminals help prevent the creation of a cold solder joint by having features such as clear adhesive-lined tubing and a thermal indicator solder sleeve. The specialty red dye completely disappears from the solder connector when the right amount of heat is applied for fully melted solder connection.

- Crystal clear adhesive-lined tubing allows for visual inspection to ensure proper solder application.
- Easy installation with pre-measured solder removes the guesswork from the solder process
- Color-coded wire gauge imprint provides easy identification of the correct part for the job
- Special red thermal indicator to let you know when solder is complete
