

Regency® Annular Cutters and Mag Drill

Accurate Drilling Through Steel

Get superior holemaking capabilities with Lawson's Regency® Annular Cutters. They cut faster and produce more accurate holes with less power and torque when compared to a standard twist drill.

- Drills holes 3x faster than with a twist drill

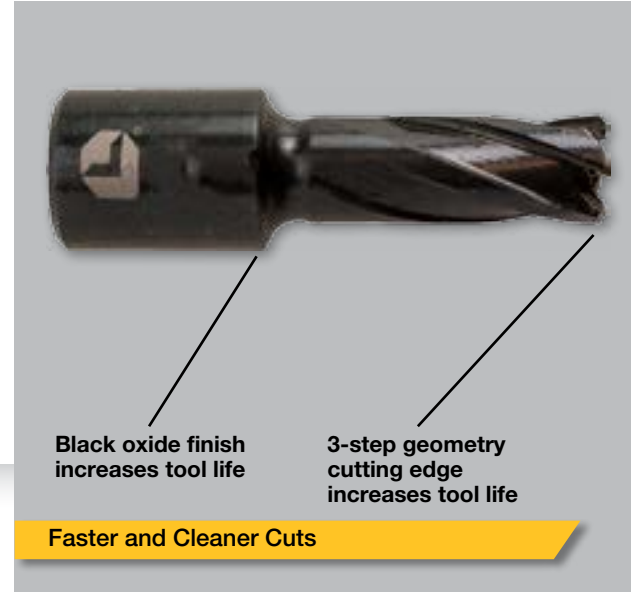

It's No Surprise Your Jobs Are Easier to Complete

- Faster cutting rate saves you time
- Easy, automatic coolant feeding through center of the cutter extends the life of the tool
- Multiple cutting edges balance the workload and wear on the tool
- Hollow design reduces cutting surface and volume of chips requiring less power and thrust

Cuts More Precise Holes

Faster and Cleaner Cuts

Drill Anywhere, Any Direction

Make the Right Cutter Choice for Your Job

Whether cutting mild steel, carbon steel, soft alloy steel, aluminum, cast iron or cast copper, Regency® Annular Cutters from Lawson Products are the right choice.

- 3-step geometry cutting edges are designed to quickly and efficiently bore accurate holes in steel
- Black oxide finish provides longer tool life when used on hard materials
- Available in 1" & 2" depth to cut and in diameters ranging from 7/16" to 2-3/8"
- Made of high-quality, high speed steel

Available Individually or in Sets

1" Depth of Cut

- All 1" Depth of Cut Cutters require a center pin, item number 1574585
- 7/16" diameter requires a center pin, item number 1574563
- Pkg. Qty. 1
