## MEGASys™ MXG™ 4K Wire Braid Hose

Rubber Hydraulic Hose  
for Spiral Hose Applications

*Lightweight, Flexible, High Pressure Hose*

Designed to replace conventional spiral hoses, MEGASys™ MXG™ 4K High Pressure Hydraulic hoses are built using a proprietary wire-braid technology, producing a light weight and highly flexible hose. This new class of hydraulic hoses exceeds the pressure performance of spiral constructions and is wrapped in XtraTuff™ Plus abrasion-resistant cover delivering exceptional durability to power your most demanding fluid power applications.

## GC20™ Crimper with Gates® Cortex™ Intelligence

Gates® GC20™ with Gates® Cortex™ Intelligence is a process automation platform that demystifies high pressure hydraulics at the push of a button. This digital crimping innovation gives even the newest operators the capability to safely crimp assemblies by combining an easy-to-use interface with real-time connectivity. The GC20™ Cortex™ Conversion Kit integrates this automation onto a baseline crimper, transforming your legacy PC707 into a GC20™ with Gates® Cortex™ Intelligence.
