

Overview

When cold weather comes, Lawson has you covered from head to toe.

Winter Liners and Balaclavas

Stretch Fleece Balaclava

Regular Length Double-Layer Cold Series Winter Liner

Warming Packs

Cold Series Standard Balaclavas keep your head, ears and neck protected from the wind and cold.

Double-Layer Winter Liners have pockets over the ears that accept warming packs to help keep ears warm in cold weather.

Warming Packs last 7 to 11 hours and can also be used as hand warmers.

Half-Face

Full-Face

Cold Series Stretch Cap-Style Balaclavas are designed to fit over hats. They come in half-face and full-face styles. The cap keeps head and ears protected from the wind and cold.

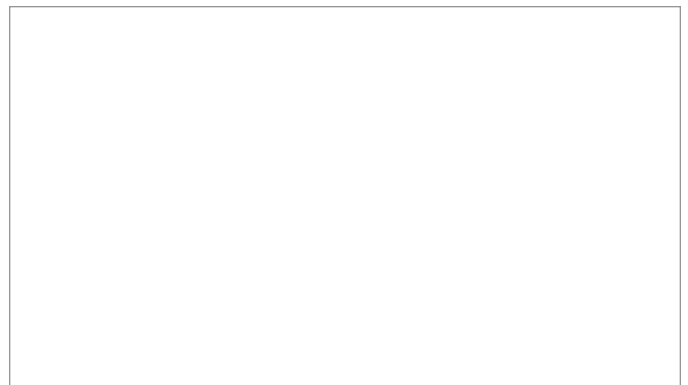

Shoulder Length Triple-Layer Winter Liner

Extreme Balaclava with Heat Exchanger

Extreme Weather Balaclavas keep your head, ears and neck protected from the wind and cold. Replaceable heat exchangers capture water vapor and heat when you exhale and help warm the air you breathe in.

Triple-Layer Winter Liners have warming pockets over the ears that accept warming packets.

Jackets

Bomber Jacket

Bomber Jackets are extremely versatile, light weight, breathable and waterproof. Larger sizes are designed to fit over winter clothing to provide a Class 3 rating. Jackets have a detachable hood and inner lining which can be removed if necessary. Outer jacket sleeves can be removed, turning the jacket into a Class 3 vest.

Gloves

String Knit Gloves

Lined Gloves

Thermal
Waterproof Gloves
with Gauntlet Cuff

String Knit Gloves can also be used as liners for an extra layer of protection in colder weather. Liners come in three different weights.

Insulated and Lined Gloves give users different options for different types of weather. These gloves are typically used for temperatures down to -5°F (-20.5°C).

Thermal Gloves are insulated with 40g of 3M™ Thinsulate® to keep hands cozy against the harshest weather. Thermal gloves come in four styles:

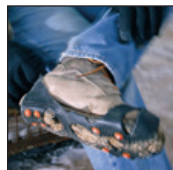

- Hi-Vis thermal (not waterproof)
- Utility work gloves (waterproof and non-waterproof)
- Utility gloves with synthetic leather and PVC-reinforced palm and fingers (waterproof)
- Gauntlet cuff gloves which provide coverage over the wrist and lower arm (waterproof)

Waterproof Gloves such as Ninja® Ice FC are coated gloves that not only repel water, but remain soft and flexible in subzero weather. Ninja® Ice FC has a rating to -58°F (-50°C).

Footwear

Toe-Warming
Packs

Trex™ Footwear

Toe-Warming Packs help keep toes warm for up to 5 hours. They feature a rounded toe and adhesive backing that sticks to the outside of the sock under the toes.

Trex™ Footwear fits over work boots and shoes for traction and stability on icy surfaces. They are available in 3 sizes: Medium (sizes 5 – 8), Large (sizes 8 – 11) and X-Large (sizes 11 – 13).
