

Wheel Cleaner – Acid Based - 1633817

Wheel Cleaner - Acid Based is an aggressive, industrial-strength wheel cleaner for metal wheels. This biodegradable, acid-based formula (hydrofluoric and sulfuric blend) removes tarnish, brake residue and rust from chrome and wire wheels.

Follow all instructions and wear proper safety equipment.

Directions and Dilutions

Do not let product dry on wheel. Must be neutralized. Follow up cleaning with a soap (1633812 or 1633813) or all purpose cleaner (1633814 or 1633815) to neutralize.

Recommended dilutions:

Dilute up to 1:4 depending on the severity of rust and brake dust to be removed.

Directions:

MAKE SURE WHEELS ARE COOL BEFORE APPLICATION, FAILURE TO DO SO MAY CAUSE DAMAGE TO HOT WHEELS. MAY ALSO CAUSE DAMAGE TO PREVIOUSLY REPAIRED WHEELS. For questionable wheels, test on an inconspicuous area before completely covering wheel.

Do not use on aluminum or alloy wheels, magnesium, plastic, or painted surfaces. Do not use on hot surfaces or in direct sunlight. Test small area first.

DIRECTIONS:

Working one wheel at a time!

1. Wash off chrome area completely with water.
2. Apply with a sprayer to CHROME ONLY. Allow to dwell for 1-2 minutes, do not allow to dry.
3. Rinse with water.
4. NOTE: Safe for most wheels.

FEATURES

- Acid-based formula
- Heavy-duty wheel cleaner and brightener
- Removes dirt, grease, road film, brake dust and oxidation

APPLICATIONS

- Wheels
