

Ceramic One Step Polish

Kent's Pro Essentials Ceramic Single Step Polish can be used as a standalone or prior to applying a ceramic coating or detail spray. Ceramic Single Step Polish contains ceramic and fine milled polishing agents for a consistent cut throughout the buffing cycle, while ceramic material is deposited into the pores of the clear coat.

This product can be used as a 1st step for minor imperfections or as a 2nd step after using Kent's Heavy or Medium Leveling Compounds. For optimal results, finish with Kent's Ceramic Detail Spray.

Features

- Shines and protects
- Tight water beading
- Easy wipe off/ Dust Free

Directions

Wash and dry vehicle. Clay bar vehicle if needed. Shake well before using. Work on a cool surface. Do not use in direct sunlight or on hot surfaces. Do not allow to freeze.

Product can be applied by hand or machine. For best results, apply four small sized drops onto a primed finishing pad. Work a 2'x 2' section at a time. Use a slow back and forth motion until product begins to break down. Wipe off residue with microfiber towel. For easier removal, use a few sprays Ceramic Detail Spray. Severely neglected finishes may need a second application to remove surface defects.

Available Sizes

1. 16 ounce – 1636319
2. 1 Gallon – 1636320

Recommended Tools

- Tornador T21 Corded Polisher (1636433) or T21C Cordless Polisher (1636434)
