

PROBLEM SOLVER

PROBLEM:

Not all metal-cutting fluids are effective and safe on all metals.

This Causes:

- Stains on certain metals.
- Lubricants to sling off drill bits and reamers.
- Inventory management is more difficult as it requires multiple products for different operations.

SOLUTION:

ETP™ Gold Metal-Cutting Lubricant

- Safe on a variety of metals including steel, aluminum, titanium, and stainless steel.
- Clinging formula stays where it's applied and won't sling off.
- Significantly extends cutting tool life and provides cleaner cuts.
- Ideal for tapping, drilling, reaming, and cutting in hand-held and machining applications.
- Available in convenient aerosol or in liquid form that can be diluted for economy.

APPLICATIONS:

- Drill bits
- Reamers
- Dies
- Taps
- Saw blades
