

PROBLEM SOLVER

PROBLEM:

Ordinary coil-type inserts:

- Require special installation tools.
- Strip and pull out in high strength applications.

SOLUTION:

Keyserts®

- Can be installed quickly with a standard tap and drill.
- Supports loads exceeding Grade 8 strength.
- Drive pins will permanently lock Keysert® in place.
- Can be used with an appropriate fastener in soft materials.
- No tangs to break off.
- Easy to remove if necessary.

APPLICATIONS:

- Automobiles, trucks, buses, RVs
- Heavy equipment, marine equipment
- Aluminum, magnesium
- Cast iron, cold rolled steel

INDUSTRIES:

- Agriculture
- Automotive
- Construction
- Equipment rental
- Government
- Hospitals
- Hotels
- Manufacturing
- Mining
- Oil & Gas
- Transportation
- Warehousing

Quick and easy to install with standard tools
