

PROBLEM SOLVER

PROBLEM:

Bad odors can come from many sources:

- Heavily soiled areas and mildew odors in carpets.
- Smelly drains, drain lines, and grease traps.
- Urine stains and odors in restrooms and carpeting.
- Smoke damage and odors on fabrics, carpets, and other surfaces.

DRUMMOND®
A LAWSON PRODUCTS BRAND

SOLUTION:

Drummond® Nix Biological Odor Control Treatments

- Doesn't just mask odors — live bacteria and enzymes attacks odor-causing substances and destroys them.
- Eliminates urine odors and stains, vomit, and other organic sources of foul odor.
- Works on porous and non-porous surfaces and helps eliminate bad odors from smoke damage.

APPLICATIONS:

- Drain lines, grease traps, septic tanks, portable toilets, and sewers.
- Carpet spotting and pre-extraction
- Dumpsters and garbage cans
- Laundry pre-wash

INDUSTRIES:

- Agriculture
- Automotive
- Education
- Government
- Hotels
- Manufacturing
- Property Management
- Restaurants
