

PROBLEM SOLVER

PROBLEM:

Ordinary hole saw spot weld cutters:

- Need pre-drilling to prevent walking on irregular surfaces.
- Leave a plug from cutting round the weld.
- Lead to extra work.
- Wear, chip, and dull easily.

SUPERTANIUM®

SOLUTION:

Supertanium® Pro-Bit® Spot Weld Remover

- No walking — the special self-centering point eliminates the need to pre-drill
- Unique point completely removes the entire spot weld plug.
- No need for secondary grinding of spot weld plugs.
- Each Pro-Bit® has a longer life than competing cutters.
- Available in sizes and configurations for every application.

APPLICATIONS:

- Fleet maintenance

INDUSTRIES:

- Automotive
- Construction
- Transportation
