

One-Handed Reciprocating Saw

Cut with ease using our ergonomic, one-handed reciprocating saw. The powerful motor and variable speed trigger makes cutting through different materials a breeze for all your demolition, construction, and metal fabrication needs.

- Voltage: 20V DC
- Brushless motor type
- Variable speed: 0-3,000 SPM
- Saw blade fitness: 0.8-1.5mm thickness
- Quick release chuck
- Superior tool balance
- LED work light

CORDLESS POWER TOOLS and ACCESSORIES

Circular Saw

This cordless circular saw is perfect for all your woodworking needs. With its powerful motor and high-speed blade, this saw makes precise cross, rip, and beveled cuts. Its cordless design, ergonomic grip, and adjustable settings make it the perfect tool for any professional needs.

- Voltage: 20V DC
- Brushless motor type
- Saw blade size: 7.5"
- Center bore: 5/8"
- Max cutting depth: 2.5" at 90°, 1.7" at 45°
- Both bevel angle and cutting indicating markings
- Dust outlet: 35mm
- LED work light
- Battery indicator for easy identification of state of charge

Compact Cordless Circular Saw

This compact cordless circular saw is the ultimate cutting tool for all your projects. Lightweight and portable, it's perfect for overhead operations and hard-to-reach areas. Its powerful torque and precise cutting capabilities make it ideal for remote locations and carpentry work.

- Voltage: 20V, DC
- Brushless motor type
- Saw blade sizes: 120mm, 1.5mm, and 20mm
- Center bore: 5.8"
- Cutting Depth: 1.61" at 90°, 1.18" at 45°
- Both bevel angle and cutting indicating markings
- Battery indicator for easy identification of state of charge

CORDLESS POWER TOOLS and ACCESSORIES

1/2" Drill Driver

This cordless pistol-grip drill provides ergonomic handling in a range of positions on vertical and horizontal surfaces. The pistol grip has a trigger switch that is pressed to activate the drill in forward or reverse.

- Voltage: 20V, DC
- Brushless motor type
- No load speed: 0-500/ 0-2000 RPM
- Torque setting: 2+1
- LED light
- Belt clip included
- Battery indicator for easy identification of state of charge

1/2" Hammer Drill Driver

This cordless pistol-grip hammer drill provides ergonomic handling in a range of positions on vertical and horizontal surfaces. The pistol grip has a trigger switch that is pressed to activate the drill in forward or reverse. Can be used in standard drill driving applications or switched at the chuck to operate as a hammer drill

- Voltage: 20V, DC
- Brushless motor type
- No load speed: 0-450/ 0-1800 RPM
- Torque setting: 18+1+1
- LED work light
- Includes a belt clip and auxiliary handle
- Battery indicator for easy identification of state of charge

CORDLESS POWER TOOLS and ACCESSORIES

1/4" Impact Driver - Hex

This cordless impact driver uses an impact force to increase torque when making holes and driving fasteners. The tool functions similarly to a standard drill but has an impact mechanism that operates similar to a hammer hitting an anvil while the bit or fastener is rotated between impacts. Driver has a 1/4" hex head that accepts 1/4" hex impact-rated bits.

- Voltage: 20V, DC
- Brushless motor type
- 3 digital speeds
- Length of head only 4.4"
- LED work light with pre-light and afterglow function
- Reversal braking
- Includes belt clip

1638995

Rotary Hammer

This cordless rotary hammer is used to perform heavy-duty tasks such as drilling and chiseling hard materials. Tool creates holes and deliver high-impact, low-frequency blows. Commonly used to drill through holes, set anchors, and remove bricks.

- Voltage: 20V, DC
- Brushless motor type
- 4 modes
- LED work light
- Includes auxiliary handle and depth gauge
- Battery indicator for easy identification of state of charge

1/2" Compact Impact Wrench

This compact impact wrench is perfect for all your mechanical needs. Its powerful motor and high torque output make it ideal for even the toughest bolts and nuts. With variable speed control, reversible action, and ergonomic design, our impact wrench is perfect for automotive repairs and heavy-duty construction work. The compact design allows for additional flexibility in hard-to-reach places.

- Voltage: 20V, DC
- Brushless motor type
- Fastening torque: 216 ft.-lbs.
- Nut-busting torque: 241 ft.-lbs.
- Variable speed dial: 3 digital speeds
- Length of head only 4.6"
- LED work light with pre-light and afterglow function
- Reversal braking
- Belt clip included

Right Angle Grinder

This right-angle grinder is perfect for grinding and cutting in tight spaces. Its powerful motor, adjustable guard, and cutting depth make it versatile for all your metal working and masonry needs. With an ergonomic design for comfort and control, our right-angle grinder is perfect for even the biggest MRO jobs.

- Voltage: 20V, DC
- Brushless motor type
- Disc dia.: 4-1/2"
- Kickback detection, anti-restart, and soft start feature
- Battery indicator for easy identification of state of charge
- Quick replaceable grinding wheel guard
- Dust screen (or dust shroud), auxiliary handle, and wrench included
