

Hand Hygiene Solutions

Protection from the Spread of Germs

You can reduce worker time off due to illness with proper hand washing. Handwashing with soap reduces and prevents the spread of germs and is one of the most important steps in illness prevention.

With the Drummond line of foaming hand wash and sanitizer solutions, you are reinforcing your commitment to improving health and hygiene in your facility.

Quick Lathering and Moisturizing

Large sight window indicates when refills need to be changed

LCD screen reinforces hand washing process

Keep Facility Restrooms Sanitary

Foaming Hand Wash Refills

- Sealed refill pouches prevent contamination
- Less foam wash is needed to achieve an acceptable level of hand hygiene; saving you money
- Environment friendly foam uses less water to rinse, puts fewer chemicals in the environment and is less likely to clog drains
- Measured amount of soap is dispensed

Wash for 20 Seconds

Promote Wellness In Your Facility

Your Lawson Representative can guide you to proper hygiene solutions and placement areas to encourage effective practices.
